Correction Tape

Pen Style **PS**
Cushioned Head Mechanism

Newest solution in a pocket.

1 Cushioned Head Mechanism

Vertically movable head allows control of pressure applied to tape. Compensates individual differences in applied pressure, so that tape sticks firmly as an exact clean correction.

2 Smooth Torque Mechanism

Supports feed-out force of tape to make the pull light and comfortable from first to last.

3 New Mini Roller Head

Smooth, comfortable pull means unit is good at overlapping, and tape is not scraped easily.

4 2-Way Function

Pull it along an entire line or press it on individual characters as you watch to keep control.

5 Retractable Head

Enables easy retraction of head with one hand.

6 Clip

Has a clip like a pen for secure storage in pocket or bag compartment.

7 Soft Grip

New ergonomic grip for firm hold.
