New Product Proposal

Paper Clinch

Staple-Free Stapler

Offices and retail stores

Insert documents into a paper shredder without the need of removing staples.

Home and school

Because it requires no staples, small children are safe from risk of injury. Ideal for crafts and school projects.

Food-related industries and hospitals

No need to worry about staples getting mixed in with food at processing plants, stores, restaurants or hospitals.

Point 1

Power assist mechanism reduces necessary force

Desktop Model requires less force

Compact size suitable for smaller hands

Point 2

Compact design

Takes up less space on a desktop

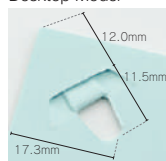

Easily stored in a desk drawer

Point 3

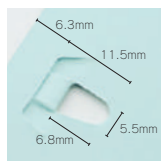

Fastens on corners or sides

Because it is capable of fastening paper on corners as well as sides, it is suitable for fastening any sort of documents.

Desktop Model

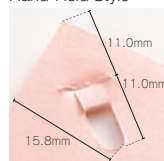

Corner fastening

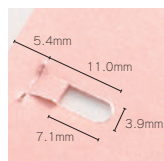

Side fastening

Hand-Held Style

Corner fastening

Side fastening

Point 4

Use the Desktop Model window to accurately position the stapler prior to stapling

Use the positioning window to prevent mis-stapling or stapling over text.

Ideal for A4-sized two-hole filing when using a gauge

(For A4 size filing only. Depending on the sales area, the gauge is not included due to the difference of paper size standard.)

Use the gauge to accurately position two holes that will allow you to insert documents into a A4-sized file. The gauge can be stored in the main body when not in use.

* Distance between the edge of the paper and the stapled hole is 2mm larger than that when used with conventional punches.
* The stapling mechanism utilizes folded paper tabs, causing an increase in thickness in stapled areas.

STAPLE-FREE STAPLER PAPER CLINCH
