

# CORRECTION TAPE SLIDE | Perfect corrections made possible with a consistently taut tape.

**Point ▶1**

## An easy solution for loose tape

### Tape winding mechanism

By tightening the tape around the tip in a single motion, the sliding head function ensures that the tape is instantly ready for an excellent performance. Slack tape is no longer a problem. Use the handy slide-switch to easily wind back any loose tape. Since there is no cap to remove (or worry about losing), usage is quick and efficient.

Slide Lever  
Push the slide lever forward and the head comes out

Pull the slide lever back to store the head inside the casing

**Point ▶2**

## Smooth ease of use

### Mini Roller Head

You can achieve a light and fluent pulling action because the Mini Roller resists sideways deviation and applies tape more effectively.

**Point ▶3**

## 2 Way corrections

### Pull for a whole sentence, push for one letter

Correct the exact spot you want to correct with a neat finish.

Pull for a whole sentence

Push for one letter

**Point ▶4**

## Easy, one-touch tape refills

### The eco-friendly refill is designed for minimum waste disposal

With this refill method, the head and gear remain in the casing thereby producing less disposable parts.

Open the casing and just put in the replacement tape

# PEEK PROOF CORRECTION TAPE | This correction tape conceals confidential information both from front and reverse side.

**Point ▶1**

## Underside-reading Proof Correction Tape

Featuring a top layer of standard white tape, with a pattern printed on its underside, this correction tape obscures the corrected text even when viewed from the underside of a translucent surface. Use this unique product as a standard correction tape, or to mask confidential information.

**Point ▶2**

## Newly developed 3-layered tape

Cross section

## Unique pattern

The unique pattern is newly developed for concealing a word or a sentence most efficiently.

Actual size 5mm width

The specially designed pattern hides letters
