**How to make it**  
Glue all pieces to the corresponding position as illustrated.

Scissors with sharp blades are dangerous, so handle and use with care. The parent/guardian of a small child must always stay nearby to watch when the child is using scissors.

Table

## How to make it.

- 1 Apply Norino glue along the pink dotted areas.

- 2 Cut out each pattern with School Scissors.

### Handy hint!

First get a larger cutout than the actual shape, then trim off the excess edge to the precise shape.

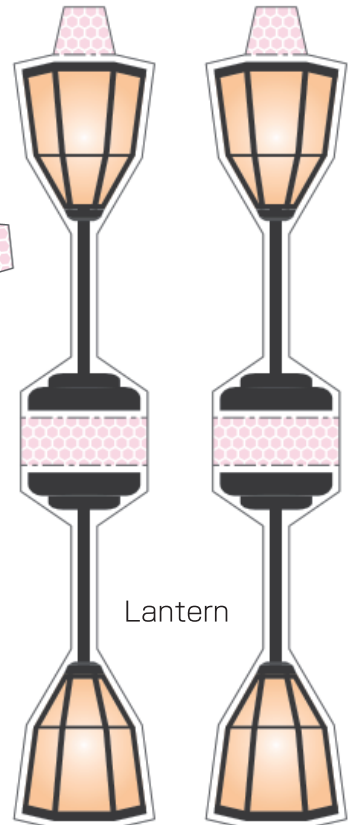

School Scissors with non-stick fluorine-coated blades are useful, because glue does not stick on.

- 3 Fold and fasten off. Well done!

Norino, the glue tape for neat and firm adhesion.

Small Rabbit

Lantern
